

**UNITED STATES OF AMERICA  
BEFORE THE  
FEDERAL REGULATORY COMMISSION**

Enogex LLC

)

Docket No. PR10-52-000

**MOTION OF ENOGEX LLC TO EXTEND DEADLINE FOR ANNUAL FUEL  
TRACKER FILING**

Pursuant to Rule 212 of the Commission's Rules of Practice and Procedure, 18 C.F.R. § 385.212 (2010), and for good cause shown, Enogex LLC ("Enogex" or "Company") respectfully moves for Commission authorization to extend the deadline for its annual fuel tracker filing from Tuesday, February 15, 2011, to no later than Monday, February 28, 2011. In support of this Motion, Enogex states as follows:

**I. Background**

Pursuant to the fuel tracker as set forth in Exhibit A of Enogex's Statement of Operating Conditions Applicable to Transportation Services ("SOC"), Enogex establishes and charges a set fuel percentage for gas shipped on the East Zone of its system and a separate set fuel percentage for gas shipped on the West Zone. The percentages are adjusted annually and are in effect from April 1 of one year through March 31 of the following year (the "Fuel Year"). Pursuant to the SOC, Enogex is required to file the fuel percentages and supporting workpapers with the Commission on or before February 15 prior to the first day of the Fuel Year (or on the next business day if February 15 falls on a weekend) and to implement the percentages on April 1 of the subject Fuel Year.

**II. Motion to Extend Filing Deadline**

Enogex respectfully requests an additional thirteen (13) days to make its annual fuel filing from Tuesday, February 15, 2011 to Monday, February 28, 2011. Enogex requests this additional time to allow it to review its data and calculations for the filing including actual fuel

data that are not yet available for January 2011. Enogex respectfully advises the Commission that the additional time sought by this Motion will permit Enogex to be as accurate as possible in the zonal fuel percentages requested for Fuel Year 2011 (April 1, 2011 – March 31, 2012).

Enogex also respectfully notes that the additional days will not impose an undue burden on Enogex shippers. The fuel percentages do not go into effect until April 1, 2011, subject to refund, meaning the shippers will not be relying on such percentages until the last week of March 2011 when shippers nominate for April 2011. Enogex believes that sufficient time exists between February 28, 2011 and the last week of March 2011 for the shippers and Commission Staff to review the Fuel Year 2011 filing. Moreover, because the percentages are not only subject to refund, as of April 1, 2011, but also ultimately subject to a value-based true-up in the following Fuel Year, shippers are doubly protected and will be asked to provide no more and no less than the fuel to be used by the Enogex system in Fuel Year 2011.

### **III. Conclusion**

For the foregoing reasons and for good cause shown, Enogex respectfully requests that the Commission extend the deadline for Enogex's 2011 Fuel Year filing from February 15, 2011 to no later than February 28, 2011.

Respectfully submitted,

**Enogex LLC**
